St. Anne Home is a ministry of the Felican Sisters of Pennsylvania dedicated to the continued healing mission of Jesus Christ by providing a continuum of care and supportive services for adults, their families, and their caregivers.

St. Anne Home is a nonprofit facility and services residents regardless of religion, age, sex, disability, or national origin.

St. Anne Home, located in Greensburg, Pennsylvania, has provided superior skilled and intermediate nursing care to residents of southwestern Pennsylvania and beyond since opening in 1964. At that time, Bishop William Connare, the second Bishop of Greensburg, recognized the need for senior citizens of every race and religion to have dignity and loving care. He invited the Felician Sisters of Pennsylvania to operate the new 125-bed facility, which has remained under their direction since its inception. In 1998, St. Anne Home expanded its ministry and campus to include an assisted living community, Villa Angela.

The sisters, along with a highly qualified staff of doctors, nurses, therapists, aides and administrative staff, provide resident care on the Home's beautiful campus. In addition to the excellent medical care, residents and their families benefit from the spiritual, social, and emotional support offered at St. Anne Home. Residents and family members may attend daily religious services in the chapel that are conducted by the resident chaplain as well as other clergy from the community. They may also participate in a wide variety of social activities, including bowling, shopping trips, outdoor picnics, and live entertainment. St. Anne Home provides the following services with love, compassion, and understanding:
